### Health and Safety Campaign 2009

Keeping in line with the “Health, Safety, Environment and Pollution Prevention (HSEP)” policy of Harren & Partner Ship-management, the annual Health and Safety campaign for 2009 was observed across its entire fleet and shore offices from 1st June 2009 till 14th June 2009.

The topics for the Health and Safety Campaign were as follows:

- Risk assessment - A tool for preventing injuries and fatalities
- Pinch points and hand injuries
- Importance of thorough pilot-master information exchange for preventing accidents

Reports and entries on any one of the above topics were invited from the entire fleet upon completion of the campaign.

The best entry and the winner for this year was the crew of MV “CFS PACORA” under the command of Captain Desisalav Yanchev Dimov. Their contribution was an excellent DVD movie and a power point presentation on the topic of “Pinch points and hand injuries”.

The winning crew was given a cash reward and a ‘Certificate of Merit’. The management and staff of Harren & Partner Ship Management offer their heartiest congratulations to Captain Dimov and his entire crew for their excellent and innovative efforts.

The second best entry and runner-up was the crew of MV “KORSOER” under the command of Capt. Andrey Zotov. An excellent report on “importance of thorough pilot-master information exchange for preventing accidents” with chart clips as evidence was prepared.

The runner-up crew was awarded with a ‘Runners up Certificate’. The management and staff of Harren & Partner Ship Management offer their heartiest congratulations to Captain Zotov and his crew for winning the runner-up title.

We would also like to add that this year the overall response from the container fleet was extremely encouraging.

Following fleet vessels deserve a special mention for their efforts in reporting:

- MT “MAERSK NORDENHAM” (tanker)
- MV “PAGUERA” (bulk-carrier)
- MV “PAMPERO” and “CFS PALAMEDES” (both container)
