Captain and crew of MV “PANAGIA“ certified for their efforts on behalf of occupational health and safety

The Harren & Partner Group observes the highest standards of quality within the scope of its “Health, Safety, Environment and Pollution Prevention Policy (HSEP)”. By doing so, we respect the fact that the crew on board the ship is as important to the safe transportation of goods as the high technical standard of the vessel itself.

With regard to this policy the Harren & Partner Group runs an annual “Occupational Health & Safety Campaign (OH&S)”, which is carried out on all the vessels in our fleet.

We are proud to announce hereby the results and the winner of the 2007 OH&S Campaign, conducted from 17th September to 30th September 2007.

The winner of the 2007 Occupational Health & Safety Campaign is the crew of the MV “PANAGIA” for their innovative and excellent presentation in Power Point, which is now being used on board to familiarize the new crew members with the safety standards. The topic chosen by the master and crew of MV “PANAGIA” for their presentation was “Be Safe At Work Or You Might Miss The Welcome Home”.

On behalf of the management and staff we would like to congratulate **Capt. Victor Sandu** and his crew for their tremendous efforts and good work!

Although we initially did not plan a runner-up award, we decided to create one this year after going through all the great reports handed in by the different ships.

The winner of the runner-up commendation is the crew of the MV “PANTANAL”, for choosing the topic “Importance Of Master-Pilot Information Exchange”. This vessel was one of the very few who chose to work on this extremely important topic. The report was excellent with actual pictures of the Master-Pilot information exchange being carried out on board during their call at Port Klang on 28th September 2007. We would like to congratulate Capt D. Poteshkin and his team for their efforts and planning.

We would also like to show our appreciation for the masters and crews of the following vessels, whose reports were also very good and informative:

- MV “PAIUTE” / Capt Rajiv Talwar
- MV “CFS PAMPLONA” / Capt Tahir Sarioglu
- MV “CFS PANAMA” / Capt Andrey Andriyash

Finally, the management and staff would like to thank all masters and their crew for their whole-hearted participation, involvement and contribution.
