

## Health and Safety Campaign 2011

The Harren & Partner Group observes the highest standards within the scope of its "Quality, Health, Safety, Environment and Pollution Prevention Policy". Following this overall approach, this year's annual "Occupational Health and Safety Fort-night" was conducted across the entire fleet as well as the shore offices from January 23<sup>rd</sup>, 2011 to February 6<sup>th</sup>, 2011.

The topics chosen for the "Health and Safety Campaign 2011" were as follows:

- How can leadership behaviors enhance and augment the safety culture?
- Risk management and hazard analysis - can it prevent accidents?

We are very delighted to announce that the heavy-lifter "HC PAULINA" has been declared the winner of this year's campaign. Its contribution was a brilliant PowerPoint presentation titled "Risk management and hazard analysis - can it prevent accidents?". Especially noteworthy is the particular creativity illustrated through current crew pictures combined with a vivid style design. The crew's outstanding efforts were acknowledged with a cash reward of USD 500 and, moreover, with a "Certificate of Merit".

Harren & Partner offers its sincerest congratulations to the crew of "HC PAULINA" for their tremendous efforts. Special thanks go to Captain Vladimir Potapov due to the fact that he is a new member of our team and hasn't been given the opportunity to undergo many company specific briefing and familiarization so far.

The second best entry was received from MT "MAERSK NEWPORT" under command of Captain J. A. Molina Alarco. The crew on board prepared an excellent presentation on the difficult topic "Leadership". This subject was also attempted by only three other participants. Both, the management and the staff of Harren & Partner, want to express their profound appreciation of the team's result, awarded with a "Runners-Up Certificate".

We would also like to point out the reports prepared by the crews of the tankers "PATRAS", "PATERNA" and "MAERSK NORDENHAM" as well as those of the three container feeders "PAMPERO", "PALAMEDES" and "PAFILIA" and the heavy-lifter "PALMERTON". Like the first and second place winner, these vessels achieved excellent results, thus indicating their great involvement and participation.

Furthermore, special mention has to be given to the following five vessels, which showed promptness and sincerity towards the campaign by submitting the reports to the office the fastest: "COMBIDOCK IV", "PANAGIA", "PALEMBANG", "PALMERTON" and "PATRAS". In each case, the master was requested to spend the received reward of USD 100 for the crew's welfare.

The shipping group Harren & Partner kindly thanks all captains and their teams for participating in the latest "Health and Safety Campaign".

*NAMES OF THE  
PARTICIPATING  
CREW*

1. Capt. V. Potapov
2. C/Off O. Momotenko
